

DECLARATION OF RESPONSIBILITY FOR NAVIGATION AND FLOTATION IN THE HIGH STRETCH OF THE EBRO RIVER AND THE REST OF RIVERS IN THE EBRO BASIN

The undersigned declarant, under its responsibility, states that the information provided in this declaration of responsibility is true and complies with the requirements of the water legislation for navigation in the Ebro basin; and commits to having this certifying documentation available and undertake to maintain compliance while performing this activity.

To complete this declaration, you must refer to the appropriate section of the "Instructions and requirements for complying with the declaration of responsibility for navigation and flotation in the Ebro basin", which is available at <http://www.chebro.es>.

1. DETAILS OF THE DECLARANT (VESSEL OWNER) *

Natural person Legal person Public Administration

4. PLACE OF NAVIGATION*

HIGH STRETCH OF THE EBRO RIVER (between Arroyo in Cantabria (its source) and the Escatrón weir in Zaragoza) **AND/OR**
 OTHER RIVERS (indicate names):

 Attach a cleaning ticket when previously you have navigated with the boat declared in an affected or in risk reservoir in the Ebro basin (see Annex 3 of the instructions), in the last stretch of the Ebro River or in another hydrographic basin.

5. VALIDITY PERIOD*

For private users: 1 year 2 years 3 years 4 years 5 years
For business, Public Administration, clubs or federations (or similar): 1 year
 For trials, descents or a specific activity: Three days maximum (DD/MM/YYYY): ... / ... / 20... and ... / ... / 20...

6. USER ACTIVITY

Type of user*: Business Private Club/federation Public organisation
Type of activity*: Sporting/ recreational Fishing Hire Rescue/security
 Courses Studies Transport Short trial
 Other:
 Attach a description of the activity for use by business, Public Administration, clubs or federations and in case of activities of rescue, security, scientific studies, trials or descents and transport.

*Mandatory fields

The declarant states he knows, accepts and agrees to comply with the "Instructions and requirements for complying with the declaration of responsibility for navigation and flotation in the Ebro basin", which is updated and available at <http://www.chebro.es> or by contacting the Confederation. He additionally declares to do the following:

1. Clean the vessel in accordance with the "Ebro Hydrographic Confederation Cleaning Protocol" (see Appendix 1, 2 and 3 in the instructions).
2. Identify its craft by painting the corresponding licence numbers on both sides, so they are easily visible and legible away from the boat.
3. Be aware that this statement does not lead to a monopoly or preference of any kind in favour of the declarant, and that navigation may temporarily or permanently be suspended by the Confederation for safety, health or other justified reasons, without the declarant being entitled to any compensation.
4. Confirm that its vessels comply with current legislation regarding their stability requirements and safety equipment availability, and the good condition of both.
5. The boats are equipped with the necessary safety and rescue features for the occupants (lifejackets and float vests in bright colours, with sound and light signals ...).
6. Observe the signalling and buoyage in prohibited areas, as well as other conditions and restrictions. Vessels must never come to the reservoir dam or outlet areas, within the distance established for each reservoir (see Appendix 2 in the instructions) or within 400 metres for those without some particular limitation (this same limitation also applies to berthing points).
7. Observe the rules on crossing and range contained in the current navigation code, and in all cases, the Collision Regulations and the Safety Convention on Life at Sea.
8. Observe the navigation rules for mountain rivers and the Najerilla and Piqueras-Iregua rivers listed in Appendix 4 of the "Instructions and requirements for complying with the declaration of responsibility for navigation and flotation in the Ebro basin".
9. Comply with the requirements of the Inland Fisheries Act and, in general, any applicable rules of an industrial, work, administrative or fiscal nature. In reservoirs where fishing is being practised, to keep a minimum distance of 50 metres from the shore during the fishing season.
10. To have all authorisations required for navigation, including those issued by other official organisations.
11. Not to enter stretches of the river and/or navigate during periods prohibited by the Confederation; and not to navigate at night.
12. To have sufficiency of ownership, according to current regulations, to be able to handle the declared vessels or be sufficiently liable for those handling the vessels.
13. Be aware of the inherent hazards of navigation and flotation in inland water, and be committed to controlling the vessel at all times and assume all risks that may result from it. For these purposes, to have an insurance policy **which must be in force during the entire period of the activity declared.**

Policy number: Insurance company:

Put a cross "X" in the box for the type of policy contracted: (see conditions in the instructions)

- 13.1. If the declarant is a private individual who wishes to use a motor boat, a sailboat of length greater than 4 metres or a sailboat with a secondary engine:**
I have taken out a Third Party Liability Insurance policy. This policy includes coverage for damage to persons with a minimum of €240,404.84 and €96,161.94 for property damage.
- 13.2. If the declarant is a public organisation, company, club or federation:**
13.2.1. The declarant is a registered taxpayer and carries out the activity covered in this submission.
13.2.1. I have taken out a Third Party Liability Insurance policy. This includes a global policy for all vessels declared. It covers all activities undertaken by the declarant, and includes coverage with a minimum of €601,012.10.
- 13.3. If the activity is a trial:**
I have taken out a Third Party Liability Insurance policy, which covers any damage caused to the participants. This includes a global policy for all vessels declared. It covers all activities undertaken by the declarant, and includes coverage with a minimum of €601,012.10. The policy is in the name of the person or entity organising the activities and, therefore, submits this statement.

This declaration of responsibility must be registered in the Ebro Hydrographic Confederation with a minimum of 15 working days (3 calendar weeks) before starting any activity, so that it can be checked if this activity is compatible with the intended uses of the public water.

The declaration of responsibility can be returned to the registration offices in the Ebro Hydrographic Confederation or by any other means established by law, including the electronic submission of documentation through the Common Electronic Register in the [General Access Point of the General State Administration](#). **EMAIL IS NOT A LEGAL MEAN OF SUBMISSION.**

Not being an obligated subject to relate to Public Administrations by electronic means (Law 39/2015, art. 14.2.), I express my preference to receive notifications: By citizen folder On paper
